& Senior Vice-President of  
Design, Waterworks

# DESIGNER AWARDS 2021

This year's Designer Awards entries are being carefully considered, with some extremely tough decisions to be made by our experienced panel of industry experts.

With new wide-ranging categories added to the list, this year's Designer Awards promises to be an exciting showcase of some of the very best design projects and products from across the industry.

Now in its 19th year, the event recognises the very best creative talent from across the UK and around the world working on residential, workplace or hospitality projects as well as the most innovative products that have made a difference to the specification choices across the industry.

It has been another challenging year but from the number and quality of submissions received by the time entries closed last month, it is clear that there has been no shortage of creative and highly innovative design work taking place.

Our judging panel this year is drawn from right across the disciplines, with highly experienced interior designers, architects, product designers, writers, and business leaders all bringing their insight to a process that is thorough and exciting in selecting the strongest projects in each category.

The winners will be announced at a gala presentation luncheon at the Grand Connaught Rooms in London's Covent Garden on Friday 12 November.
